Mechanical engineering student with expertise in AutoCAD, Onshape, SolidWorks, and competition robotics.

EDUCATION

ATLANTIC COUNTY INSTITUTE OF TECHNOLOGY Academy of Math, Engineering, and Science	June 2026 GPA: 4.2
[Relevant coursework, honors, or program focus] [A notable project or accomplishment from your studies]	
Rutgers University–New Brunswick Mechanical Engineering	September 2026 - Present GPA: N/A
[Relevant coursework, honors, or program focus] [A notable project or accomplishment from your studies]	

WORK EXPERIENCE

[Company Name] [Job Title] [Start Date] – [End Date]
[Responsibility or achievement — start with an action verb; quantify results where you can] [Responsibility or achievement] [Responsibility or achievement]

PROJECTS

Sprocket Team Leader & Designer	VEX Pushback & High Stakes Competition
- Designed and CAD-modeled a custom competition robot in Onshape and AutoCAD amongst - Programmed sensor-based autonomous routines for object retrieval, path-following, and location tracking. - Won Judge Award and finished 3rd place in SkillsUSA	

TECHNICAL SKILLS

ENGINEERING & CAD AutoCAD, Onshape, SolidWorks, 3d Printing, Laser Engraving	ROBOTICS & ELECTRONICS VEX Robotics, VEX Sensors & Electronics, Pneumatics
SOFTWARE & CODING Python, C++, Visual Studio Code	LANGUAGES English, Vietnamese, Chinese

HONORS & AWARDS

VEX V5 Judge Award: Exceptional engineering documentation, full assembly CAD design, excellent presentation skills.	3rd Place SkillsUSA: Demonstrate technical and safety skills at competition.
Top 10 Academic Student: Recognized for academic excellence at ACIT.	6th Place Wind Turbine: Statewide aerodynamic efficiency and generator output optimization contest.
