Mechanical engineering student with expertise in AutoCAD, Onshape, SolidWorks, and competition robotics.

EDUCATION

ATLANTIC COUNTY INSTITUTE OF TECHNOLOGY

June 2026

Academy of Math, Engineering, and Science

GPA: 4.2

- Robotics I & II, Materials & Structure, Principles of Design, Engineering Capstone I & II, AP Physics C, AP Calculus BC
- Led CAD design and a 4-person team on Sprocket, a VEX Pushback competition robot built through ACIT's Engineering Capstone program; won Judge's Award and placed 3rd at SkillsUSA

Rutgers University–New Brunswick

September 2026 - Present

Mechanical Engineering

GPA: N/A

PROJECTS

Sprocket | Team Leader & Lead Designer

VEX Pushback Competition

- Led CAD design in Onshape and AutoCAD for a 4-person team, building a competition robot from scratch that solved prior teams' failures in weight, navigation drift, and documentation
- Engineered closed-loop odometry and PID control systems in C++ to replace unreliable open-loop navigation
- Won Judge's Award for engineering process and documentation; placed 3rd at SkillsUSA

Wind Turbine Competition | Aerodynamics Lead

NJ State Wind Turbine Engineering Contest

- Ran iterative aerodynamic tests on blade material, shape, twist, and pitch to optimize power output as part of a 3-person team
- Identified optimal configuration (3 cardboard blades, 10° twist, 0–5° pitch) through hands-on prototyping and wind-tunnel testing
- Achieved peak output of 7.4 watts, placing 6th statewide

TECHNICAL SKILLS

ENGINEERING & CAD

AutoCAD, Onshape, SolidWorks, Reverse Engineering, Mechanical Design, 3D Printing, Laser Engraving

ROBOTICS & ELECTRONICS

VEX Robotics, Sensors & Automation, Electronics, Prototyping, Pneumatics

SOFTWARE & CODING

Python, C++, Visual Studio Code

LANGUAGES

English, Vietnamese, Chinese

HONORS & AWARDS

Top 10 Academic Student: Recognized for academic excellence at ACIT.
